1. GENERAL INFORMATION ABOUT OUR COMPANY

1.1. General Information

RAICO CONSTRUCTION & CONSALTING LTD

Since its establishment in 2006, Raico Construction & Consalting Ltd Co. has been active in the construction of building, industrial and infrastructure projects. Together with the expertise and experience of its executive team, Raico has a wide experience in the international construction sector. The major markets of operation include Turkey, Middle East, as well as the regions of West and Middle Africa.

The company has completed several constructions, ranging from buildings to sport complexes and industrial plants, railways and highways to bridges, dams to hydro power plants and water distribution networks to environmental projects. Several of these constructions have been executed abroad, in countries such as Saudi Arabia, Sudan, Afghanistan, Nigeria, Cameroon, Azerbaijan, Turkmenistan, Uzbekistan, Kazakhstan, and Romania.

Raico follows new technologies and developments and trains its staff regularly with courses and seminars. With a well-developed Quality Management System and Procedures, the firm is among the leading construction companies of Turkey.

Our main lines of business are as follows: Building Constructions, Sport Complexes, High-Rise Commercial Buildings, Residential Buildings, Railways, Highways, Bridges, all kinds of infrastructure constructions, Dams, Hydroelectric Power Plants, Irrigation Systems, Drainage Systems, Pumping Stations, Steel Structures, Industrial Projects, Ports, Airports, Energy Lines, Feasibility Studies, Consultancy, Project and Construction Management etc.

MISSION & VISION

MISSION

As a part of this commitment, we believe that the quality of the works we build would make us among the most respected companies for our customers.

VISION

Raico aims to be the leader with the construction services that it offers in the region of its activity. Our long-term strategies to realize this aim are:

Working in the most difficult projects, with the latest technologies

Becoming a specialist of working in difficult regions and locations

Continuously improving our methods, the technology we use, and our performance

Using innovation to differentiate and gain competitiveness in our services

SOCIAL RESPONSIBILITY POLICIES

RAICO'S ENVIRONMENTAL POLICY

Our policy is to be environmentally responsible in construction activities on sites.

Minimizing any effects of our activities that may have on the environment is a prior aim. Therefore, we are committed to:

Following the related laws and regulations

Trying to prevent pollution

Reducing waste to the lowest practicable level

Providing training for the employees with information on environmental issues

Creating a positive environmental culture within the Company

Taking action with appropriate control measures, when environmental hazards are identified

Welcoming constructive comments from third party organizations on aspects that may improve environmental issues.

SUPERSTRUCTURES

BUILDINGS

- Residence and Commercial Buildings
- Military, Medical and Educational Facilities
- Tourism, Cultural and Social Facilities

INDUSTRIAL

- Industrial Plants
- Energy and Power Plants
- Petrochemical Plants
- Depots
- Telecommunication Facilities
- Energy Lines

INFRASTRUCTURES

HYDRAULIC WORKS

- Dams and Hydro Power Plants
- Irrigation and Drainage Systems

TRANSPORTATION

- Railways and Metro Systems
- Highways and Motorways
- Bridge, Viaduct and Tunnels
- Ports
- Airports

URBAN INFRASTRUCTURE

- Water Supply Systems
- Treatment Plants
- Urban Systems
- Landfills
- Decontamination and Cleanup of Hazardous Waste
- Pipelines

SUMMARY OF QUALIFICATIONS

Middle East Technical University Civil Engineering (Bachelor) 1992 February
ETH Zurich Mechanical Engineering (Internal Combustion Engines) 1993 September
BTC Permit to Work Course 2003.
BTC Risk Assessment Course 2005 October
Offshore pipeline engineering (Prof. Andrew Palmer) 2005 Houston
NDT RT, UT Level 2 2004 April
AUT Level 2 August 2006
HSE Certificate Level C 2014
BOSIET 2017 September

SUMMARY OF PROFESSIONAL EXPERIENCE

Onshore pipelines engineering and construction management
Offshore pipelines engineering and construction management
FEED of Chemical Plants, Power plants,
Marine construction (Port, harbor and jetty construction)
Water pipelines construction management

PROFESSIONAL EXPERIENCE

Sept-2018- South Stream Transport B.V. TurkStream Project
Kıyıköy-Kırklareli
Senior Construction Engineer. Construction of the receiving terminal of the two 32" offshore pipeline from Anapa/Russia to Turkey.
Road and fly over bridge construction for access to site and the terminal.
www.turkstream.info

Mar-2015-Sept-2018 TANAP Natural Gas Pipeline Project

Ankara, Turkey
Delivery Manager until August 2016 Lot 3 (525 Km 56" pipeline)
Delivery Manager August 2016 till present Offshore Section (Dardanelles Crossing) (17 km twin 36" pipeline-17 km twin 48 fiber cable- 17 km twin 196 fiber cable laying)
www.tanap.com

- Aug 2014-Mar 2015 Suyapı Engineering Consultancy
Ankara, Turkey
Site Manager,
Preparation of site camps for TANAP Project including pipe storage areas,
Preparation of access roads for pipe storage areas and RoW.
- March-July 2014 Schwartzkristoffel
Port Harcourt, Nigeria
Consultant,
Rehabilitation of existing oil pipelines, access roads to BVs.
Critical path analysis for pipeline construction in swamp areas
- Jan 2012- Feb 2014 Renaissance Holding
Ankara, Turkey
Technical Coordinator,
FEED of Methanol Plant in Russia
FEED of Polypropylene Plant in Turkey
FEED of Combined Cycle Power Plant in Turkey, preparation of tender documents
Development of new strategies and perspectives for the company in order to achieve sustainable raw material (Natural gas for CCHP and Methanol Plant, propane for Petrochemical Plant)
- 2005-Jan 2012 BOTAS Petroleum Pipeline Corporation
Ankara, Turkey
Technical Manager, International Projects Department
Management and Control of FEED of NABUCCO Project (Natural gas pipeline of 31 bcm annual capacity combining Turkey, Austria, Hungary, Romania, Bulgaria), Preparation of tender documents.
- Management of Turkey-Greece Interconnector pipeline construction. 185 km. 36" onshore pipeline, 17 km 36" offshore pipeline.
- Management and Control of FEED of Euro Arab Mashreq Pipeline Project (Natural gas pipeline of 20 bcm annual capacity combining Turkey, Syria, Jordan, Egypt)
www.botas.gov.tr
- 2002-2005 BTC (Baku Tbilisi Ceyhan Crude Oil Pipeline Project) Directorate
Ankara, Turkey
Construction Manager,
Engineering, Procurement, Construction (EPC) of (457 km. 42") crude oil pipeline, (Erzurum-Sivas Section)
- 2000-2002 ACT Construction Co. Inc.
Ankara Turkey
Site Manager,
Construction of Natural Gas distribution pipelines, Istanbul
Installation of RMS station, Istanbul
Harbor Construction, Aktau, Kazakhstan
Çorlu Interchange (E-80)-Çorlu Access Road Construction, Between Km: 0+000-7+500 (Including Çorlu Ringroad between Km: 99+100-109+143),

	Turkey
1998-2000	Burren Energy PLC, Barsa-Nebitt Dag, Turkmenistan Construction Superintendent, Rehabilitation of Oil wells (70 wells including Christmas trees, fishing operations, casing applications) On-shore pipeline construction (120 km. 24") Off-shore pipeline construction (10 km. 16") Preperation and rehabilitastion of access roads to the site and camps.
1995-1998	Aydiner Construction Co. Inc. Ankara Turkey Project Engineer, FEED of Greater Baku Water Pipeline Project (JV with OTV France),
Azerbaijan	Offshore water pipeline construction, Manavgat, Turkey Avclar Junction - Haramidere Junction (on E-5 Motorway) Connection Road Construction, Turkey
1993-1995	Akgun Construction Co. Inc. Ankara, Turkey Field Engineer, Water distribution pipeline construction, Turkey Harbor Construction, Turkey Kinalı - Mahmutbey Motorway, Turkey

Technical skills and competencies

AUT Interpreter, NDT RT-UT inspector level 2
 Courses about Offshore pipeline engineering (Prof. Andrew Palmer, in Houston USA)
 Pipesim (steady state multiphase flow simulator),
 Pipeline Studio (Offline Pipeline Simulation Software for Gas Networks),
 Stoner (pipeline simulator software),
 ISO 9001-14001 Quality Management Systems,
 OHSAS 18001 Occupational Health&Safety Systems
 PM Certification
 BOSIET
 ASTM section C&D
 Windows Office Programs,

KEY QUALIFICATIONS

HS&E awareness, QA/QC, Pipeline engineer, civil engineer, energy specialist, NDT level 2 certified, experienced in both on-shore and off-shore pipeline applications, cross border international pipeline projects, road and highway construction, FEED and detailed engineering of pipelines, compressor stations, pump stations, methanol plants, petrochemical plants, Combined Cycle Power Plants, road and highways, harbor and jetty construction, project management.

COUNTRY EXPERIENCE

Turkey, Russia, Middle East, Africa, Eastern Europe, CIS Countries.

Date of Birth: 1967
Country of Turkey
Citizenship/Residence:

Education:

School, College and/or University Attended:	Degree/certificate education obtained	Date Obtained
Middle East Technical University, Ankara, Turkey	Bachelor of Civil Engineering	1989

Employment record relevant to this assignment:

Period	Employing organization and your title/position. Contact information for references	Countries	Summary of activities performed relevant to the Assignment
May-2019 to Present	Employer: Altinok Consulting Company/Ankara-Nigde Motorway Construction Position: Senior Asphalt Supervisor Manager	Turkey	Supervising the asphalt works (Bitumen Base Layer, Binder Layer, and Stone Mastic Asphalt) and asphalt related works (Bridge Deck Asphalt and Membrane works etc) and check the requests submitted by the Contractor. Directing the Contractor's team for getting the high quality of the works and report team leader about the quality of the works whether complying the technical specification and the Contract of the Works.
2015 – 2019	Employer: Dogus-Gulsan JV Rigid/Concrete Pavement Road Construction Positions: Project Manager (since 11/2017)/ Technical Manager / Deputy Project Manager	Kazakhstan	Managing all the team working in Contractor's side on 112km road project; issue necessary notices to the Engineer, and the Employer, and also to give necessary instructions to the Contractor's crew regarding the execution and QA of the construction works on the bridges, structures, road pavements and all other works. Directing the Contractor's team for getting the high quality in accordance with technical specifications and the contract as required for ASTM, AASHTO, BS, SNIP, and GOST. Under MDB/Pink FIDIC.
2011 - 2015	Employer: Proyapi Ins. Ltd. Sti. Positions: Deputy Team Leader / Resident Engineer / Senior Pavement & Asphalt Specialist	Azerbaijan	Managing the supervision team on road and tunnel project for getting the high quality of works in accordance with technical specifications and the contract as required for ASTM, AASHTO, BS, SNIP, and GOST. Supervision of construction works on a 145km road project. Under MDB/Pink FIDIC.
2008 - 2011	Employer: Proyapi Ins. Ltd. Sti. Positions: Deputy Team Leader / Resident Engineer / Senior Pavement & Asphalt Specialist	Azerbaijan	Supervision of construction works on a 27km 4-lane road project. Managing the hot mix designs, and job mix formulas, review and supervise works (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.) on a 145km road project. Under MDB/Pink FIDIC.
2007 - 2008	Employer: Eko Construction Company-Turkey Positions: Deputy Project Manager, QA/QC Manager	Kazakhstan	Managing QA/QC of contractor's works and the laboratory team on a of 120km road project for the high quality of the constructed road. Review and supervise works. Preparation of asphalt mix designs, and concrete mix designs, making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field, modified bitumen production, application of it, and related bitumen tests in

Period	Employing organization and your title/position. Contact information for references	Countries	Summary of activities performed relevant to the Assignment
			accordance with AASHTO, ASTM, BS, SNIP and GOST related specifications. Under MDB/Pink FIDIC.
2004-2007	Employer: Louis Berger Inc Positions: Deputy Project Manager, QA/QC Manager	Afghanistan	Supervision of construction works on a 80km road project. Managing QA/QC of works and the laboratory team for the high quality of the constructed road. Review and supervise works. Coordination between construction supervision team and the QA/QC team. Preparation of asphalt mix designs, and concrete mix designs, and, making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field, modified bitumen production, application of it, and related bitumen tests in accordance with AASHTO, ASTM and BS related specifications.
2003-2004	Employer: Gama-Tubin Joint Venture Positions: QA/QC Manager	Ireland	Managing QA/QC of contractor's works and the laboratory team on a 22km motorway bypass project for the high quality of the constructed road. Review and supervise works. Preparation of asphalt mix designs and concrete mix designs and making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field in accordance with AASHTO, ASTM, TRL, and BS related specifications. Under MDB/Pink FIDIC.
1999-2003	Employer: General Directorate of Highway in 4th Division of Highway Directorate in Ankara Positions: Head of Technical Research Department	Turkey	Road construction projects including modified asphalt pavement. Final Preparation of pavement designs of all road construction projects in accordance with AASHTO, BS, TRL, and GOST. Preparation of asphalt mix designs, and Concrete Mix Designs in accordance with AASHTO or BS. These projects were funded by Local Budget. Local Contract Terms Used.
1997-1999	Employer: 4th Division of Highway Directorate of Ankara Positions: Supervision Engineer	Turkey	Supervising of the road construction projects. Managing the hot mix designs, and job mix formulas (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.). Additionally, managing the concrete mix designs. Checking the works either done in accordance with Technical Specification of the Contract. Supervising of the design of the road projects. Funded by Local Government Budget.
1993-1997	Employer: General Directorate of Highway, Technical Research Department Positions: Pavement Design & Bituminous Hot Mixes Engineer	Turkey	Preparation of Pavement Design reports for any road projects in Turkey in accordance with AASHTO, BS, and TRL. Final Preparation of the hot mix designs for the road projects; preparation of Pavement Designs in accordance with the measurement of Falling Weight Deflectometer Device, Skid resistance tester device, and Profilometer Device; Implementing Pavement Management Systems by using above devices in all over Turkey's Roads.
1992-1993	Employer: 4th Division of Highway Directorate in Ankara Positions: Survey & Supervision Engineer	Turkey	Final application of the designs in road projects to be constructed, and supervising of the roads during construction on behalf of Trabzon Highway Division

Period	Employing organization and your title/position. Contact information for references	Countries	Summary of activities performed relevant to the Assignment
1991-1992	Employer: Military Service Positions: lieutenant Translator	Turkey	Translation of Military Documents to Turkish Language
1989-1991	Employer: 10th Division of Highway Directorate in Trabzon Positions: Survey & Supervision Engineer	Turkey	Both Survey & Supervision Engineer duties held in Trabzon Highway Division Roads, checking of designs and construction works.

Detailed Tasks Assigned on Consultant's Team of Experts:

Work / Assignments that Best Illustrates Capability to Handle the Tasks Assigned:

Name of Assignment: Ankara-Nigde Motorway Construction : Km 0 to 350

Year: May-2019 to Present

Location: Ankara/SariYahsi/Turkey

Client: Turkey General Directorate of Highways

Company: Altinok Consulting Company

Position Held: Senior Asphalt Supervising Manager

Main Project Features: The Construction of 350 Km of Motorway having 12 Overpass Junctions, and Culverts.

Activities Performed: Supervising all related asphalt works give approval to proceed or reject or instruct to rectify if not complying technical specifications and the Contract. Managing the Supervise team, and prepare reports for the Team Leader who is reporting to the Client. Checking the Contractor's work program and also reporting the reasons for delays or reasons for bad quality of the works everyday preparing reports to the top management.

Name of Assignment: Almaty-Kokpek-Chunja-Koktal-Khorgos Lot1 and Lot2 Km: 0 to 111+700

Year: 2015 - 2019

Location: Almaty, Kazakhstan

Client: Kazakhstan Road Committee

Company: Dogus-Gulsan JV

Position held: Deputy Project Manager/Technical Manager

Main Project features: The construction of 112 km first category road including 46 Bridges, 7 Overpass Junction, and 280 pieces culverts/pipes, 112 km of concrete pavement construction

Activities Performed: Assisting the Contractor's team for getting the high quality in accordance with technical specifications and the contract as required for ASTM, AASHTO, BS, SNIP, and GOST.

Giving necessary instructions to the Contractor's crew regarding the execution and quality assurance of the construction works on the bridges, structures, road pavements and all other works.

Name of Assignment: Consultancy services for design review and Construction Supervision services of M4 Project and

Genclik Qelebe Square Subway Construction Project

Year: 2011 – 2015

Location: Baku / Azerbaijan

Client: AzeryolService OJSC

Company: PRO YAPI Proje İnş.San.Tic.Ltd.Şti

Position held: Deputy Team Leader/Senior Material & Pavement Engineer

Main Project features: Management and construction supervision of 145 km first category M4 road project including general road works, road drainage, structures and other ancillary works, and Genclik Qelebe Square Subway Construction Project including a significant structural component.

Activities Performed: Supervision of construction works. Managing the supervision team for getting the high quality of works in accordance with technical specifications and the contract as required for ASTM, AASHTO, BS, SNIP, and GOST. Managing the hot mix designs, and job mix

formulas, review and supervise works (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.).

Name of Assignment: Consultancy services for design review and Construction Supervision services of Baku-Alat Highway construction

Year: 2008 – 2011

Location: Baku, Azerbaijan

Client: AzeryolService OJSC

Company: PRO YAPI Proje İnş.San.Tic.Ltd.Şti

Position held: Deputy Team Leader/Senior Material and Pavement Engineer

Main Project features: Management and construction supervision of 27 km first category road Baku-Alat including general road works, road drainage, structures and other ancillary works.

Activities Performed: Supervision of construction works, managing the supervision team for getting the high quality of works in accordance with technical specifications and the contract as required for ASTM, AASHTO, BS, SNIP, and GOST. Managing the hot mix designs, and job mix formulas, review and supervise works (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.).

Name of Assignment: Atyrau-Aktau Highway Project

Year: 2007-2008

Location: Atyrau / Kazakhstan

Client: Kazakstan Road Committee

Company: Eko İnşaat

Position held: Material Engineer-QA/QC manager

Main Project features: Construction of 120 km highway including general road works, road drainage, structures and other ancillary works.

Activities Performed: Managing QA/QC of contractor's works and the laboratory team for the high quality of the constructed road. Review and supervise works. Preparation of asphalt mix designs, and concrete mix designs, making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field, modified bitumen production, application of it, and related bitumen tests in accordance with AASHTO, ASTM, BS, SNIP and GOST related specifications.

Name of Assignment: Kabul-Gardez Highway Project

Year: 2004-2007

Location: Gardez, Afghanistan

Client: Afgan Road Authority

Company: Louis Berger Inc

Position held: Material Engineer-QA/QC Manager

Main Project features: Construction of 80km highway including general road works, road drainage, structures and other ancillary works.

Activities Performed: Managing QA/QC of works and the laboratory team for the high quality of the constructed road. Review and supervise works. Preparation of asphalt mix designs, and concrete mix designs, making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field, modified bitumen production, application of it, and related bitumen tests in accordance with AASHTO, ASTM and BS related specifications.

Name of Assignment: Construction of Ballincollig Bypass-Motorway Road

Year: 2003-2004

Location: Ballincollig, Ireland

Client: Irish Road Committee

Company: Gama Tubin JV

Position held: Material Engineer-QA/QC Manager

Main Project features: Construction of 22km motorway including general road works, road drainage, structures and other ancillary works.

Activities Performed: Managing QA/QC of contractor's works and the laboratory team for the high quality of the constructed road. Review and supervise works. Preparation of asphalt mix designs and concrete mix designs and making the reports for the contractor. Cold mix asphalt designs, and the production and applications in the field; coated chipping production, and applications in the field in accordance with AASHTO, ASTM, TRL, and BS related specifications.

Name of Assignment: Approximately 40 road projects under responsibility of the 4th Division of Highways

Year: 1999-2003

Location: Ankara, Turkey

Client: General Directorate of Highways, KGM

Company: General Directorate of Highways, KGM

Position held: Head of Technical Research Department

Main Project features: Road projects of various length, type and complexity - widening, rehabilitation and new construction including general road works, road drainage, structures and other ancillary works.

Activities Performed: Managing all road projects in respect of QA/QC subjects described in the contract. Preparation of pavement designs of the roads to be constructed. Managing the hot mix designs, and job mix formulas (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.). Preparation of asphalt pavement design reports for existing pavement in accordance with AASHTO 2003 Pavement Manual. Making visual inspection in the road, taking cores, and calculation of pavement thicknesses by using effective thickness method of AASHTO manual.		
Name of Assignment: Kirikkale-Delice Junction Highway Construction Year: 1997-1999 Location: Ankara, Turkey Client: General Directorate of Highways, KGM Company: General Directorate of Highways, KGM Position held: Supervision Engineer Main Project features: Supervision of the road construction including general road works, road drainage, structures and other ancillary works. Activities Performed: Supervision engineer; managing the hot mix designs, and job mix formulas (Stability, Flow, VMA, Va, Dp, filler/bitumen ratio analysis etc.). Additionally managing the concrete mix designs. Checking the works either done in accordance with Technical Specification of the Contract.		
Name of Assignment: Various road projects across Turkey Year: 1993-1997 Location: Ankara, Turkey Client: General Directorate of Highways, KGM Company: General Directorate of Highways, KGM Position held: Pavement Design Engineer and Bituminous Mixes Engineer Main Project features: Road projects of various length, type and complexity - widening, rehabilitation and new construction including general road works, road drainage, structures and other ancillary works. Activities Performed: Preparation and check of road pavement reports, bituminous hot mixes designs. Coordination of the surveys for the existing road conditions using the Falling Weight Deflectometer, Profilometer, and Skid Resistance Tester Device.		
Name of Assignment: Various road projects under responsibility of Trabzon Highway Division Year: 1989-1991, 1992-1993 Location: Trabzon, Turkey Client: General Directorate of Highways, KGM, Turkey Company: General Directorate of Highways, KGM Position held: Survey and Supervision Engineer Main Project features: Road projects of various length, type and complexity - widening, rehabilitation and new construction including general road works, road drainage, structures and other ancillary works. Activities Performed: Supervision of road construction projects, road condition surveys.

SUMMARY OF QUALIFICATIONS

Sakarya University Metallurgical and Material Engineering (Bachelor) 1999 February
BP Permit to Work Course 2014.
BP Risk Assessment Course 2014 April.
Offshore pipeline engineering. (TANAP Project)
NDT RT, UT, MPI, VT, PT Level II (ASNT)
ISO 9001-14001 Quality Management Systems BVQI
OHSAS 18001 Occupational Health&Safety Systems

SUMMARY OF PROFESSIONAL EXPERIENCE

I have experience more than 15-years in Construction and Quality Control. (ISO 9001:2000 and API Spec. Q1) Management system and highly familiar with Environmental Management ISO 14001 and Health &Safety Management OHSAS 18001 systems. Fabrication, Construction and Manufacturing Industries both in Turkey and abroad. I've worked in Oil & Gas Industry, mainly line pipe manufacturing, construction of pipeline and related facilities and I am fully conversant with field QA/QC requirements and appropriate codes, standards & specifications, including: API, ASME, AWS,ANSI, EN.
Onshore pipelines engineering and construction management
Offshore pipelines engineering and construction management
FEED of Chemical Plants, Power plants.

PROFESSIONAL EXPERIENCE

Mar-2015- TANAP Natural Gas Pipeline Project
Ankara, Turkey
Principal Construction Engineer until August 2017 Lot 3 (264 Km 56" pipeline)
Principal Construction Engineer August 2017 till present Offshore Section (Dardanelles Crossing)
(17 km twin 36" pipeline-17 km twin 48 fiber cable- 17 km twin

196 fiber cable laying)

Sept 2014-Mar 2015 TANAP Natural Gas Pipeline Project

Ankara, Turkey

Principal QA/QC Engineer,

Preparation of site camps for TANAP Project including pipe storage areas,

Feb 2014 - Sept 2014

Verwater Turkey

BP BTC Terminal, Turkey

Deputy QA/QC Manager,

BP Marpol Project,

I am fully conversant with field QA/QC requirements and appropriate codes, standards & specifications, including: API, ASME, AWS, ANSI, BS, EN.

Jan 2013- Jan 2014

Poti Terminal Holding

Poti, Georgia

Quality Control Manager,

Poti Methanole storage Tank Project.

Manage and coordinate the tasks of inspection centers with the scope of Worldwide Shop Inspection & Expediting Services in association with the QA/QC Project Team at Site.

Development of new strategies and perspectives for the company in order to achieve sustainable raw material (Natural gas for CCHP and Methanol Plant, propane for Petrochemical Plant)

July 2012-Nov 2012

Bis Enerji Corporation Bursa, Turkey

Power Plant (2 x HRSG, 1 x Steam Turbine assembly and process piping)

Project Manager, Management of project scheduling for mechanical works.

Technical clarification coordination between engineering group and suppliers/subcontractors

Nov 2011-July 2012

Turkerler Holding

Naturalgas Compressor Station Construction.

Construction Chief,

Activities which are under control of Construction Chief during construction, Bending /Welding /NDT /Pipelay/Backfill and valve stations. For the review and approval of contractors QA/QC procedure, welding and NDT procedures, inspection and test plans (I&TP), quality

plans.

Inspection and Audit, qualification and approval of subcontractors.

Witnessed welding procedure and NDT qualifications.

Apr 2010- Mar 2011

San – Is Construction Co. Inc.

Istanbul, Turkey

Construction Chief,

Antalya Naturalgas Pipeline Construction (108 km 36" Natural Gas Pipeline) Antalya, Turkey

Construction of Natural Gas distribution pipelines, Activities which are under control of Site Chief during construction, Stringing/Bending /Welding /NDT /FJC/Trenching /Pipe-lay/Backfill and block valve stations. For the review and approval of contractors QA/QC procedure, welding and NDT procedures, inspection and test plans (I&TP), quality plans. Inspection and Audit, qualification and approval of subcontractors. Witnessed welding procedure and NDT qualifications, Coating and Bending qualifications, evaluating and approval of result. Establishment and implementation of ISO 9001. Review and implementation of procedures to ensure compliance to codes. Assisting to compile of as built and QC documentation for certification final pack handover to Client.

Feb 2006-Feb 2010

Naturelgas A.S

CNG (Compressed Naturalgas) Service (Bursa/Turkey)

	Area Manager, CNG Naturalgas technical support service teams creating, administrated and Improved. Selection of high pressure equipment's for the process.(200-300b)
Jun 2004-Feb 2006	Erkurt Holding Bursa, Turkey Production Chief, Manufacture of Car Parts (Ford, Renault, Toyota etc..) Production engine noise insulators, heat insulators with aluminums.
Mar 2000-Jun 2004	BOTAŞ & GUNSAYIL CONSTRUCTION A.S Ankara, Turkey Field Engineer, ESKİŞEHİR - ANKARA NATURAL GAS PIPELINE CONSTRUCTION (40" 100km) SUSURLUK DISTRIBUTION LINE PROJECT (8" 30km) MANISA DISTRIBUTION LINE PROJECT (8" 42km) AKHİSAR DISTRIBUTION LINE PROJECT (10" 16km) BALIKESİR DISTRIBUTION LINE PROJECT (16" 50km) (4 Units) RMS A station Assembly.

Technical skills and competencies

AUT Interpreter, NDT RT-UT inspector level 2
 Courses about Offshore pipeline engineering (TANAP PROJECT, TURKEY)
 Pipeline Studio (Offline Pipeline Simulation Software for Gas Networks),
 ISO 9001-14001 Quality Management Systems,
 OHSAS 18001 Occupational Health&Safety Systems
 Windows Office Programs,

KEY QUALIFICATIONS

Pipeline engineer, civil engineer, energy specialist, NDT level 2 certified, experienced in both on-shore and off-shore pipeline applications, cross border international pipeline projects, FEED and detailed engineering of pipelines, compressor stations, pump stations, methanol plants, petrochemical plants, Combined Cycle Power Plants, harbor and jetty construction, project management.

COUNTRY EXPERIENCE

Turkey, Georgia, Cyprus.

MEMBERSHIP IN PROFESSIONAL BODIES

Chamber of Metallurgical and Material Engineering, Bursa

CURRICULUM VITAE

1. **Family name:** EYRİCE
2. **First name(s):** Reyhan
3. **Date of birth:** February 23, 1976
4. **Contact Number:** +90 533 715 37 97
5. **Email:** reyhaneyrice@yahoo.com
6. **Address:** 1467 sk. No:3/29
Cukurambar/Cankaya/Ankara/TURKEY
7. **Nationality:** Turkish
8. **Civil status:** Single
9. **Education:**

Institution (date from – date to.)	Degree(s) or Diploma(s) obtained:
City of London College London, England (2003-2005)	Master of Science (M.Sc.) Degree in Management Studies
19 Mayıs University Samsun, Turkey (1993-1999)	Bachelor of Science (B.Sc.) Degree in Environmental Engineering

10. Language skills: (1 = excellent – 5 = basic)

Language	Reading	Speaking	Writing
English	1	1	1
Turkish	1 (native)	1 (native)	1 (native)

11. Membership of professional bodies:

Chamber of Environmental Engineers

12. Other skills:

Full computer literacy in Office applications (Word, Excel, PowerPoint, SQL, C#)

13. Present position: Environmental Specialist of TANAP

14. Years within the firm: 4 years

15. Total years of experience: 20 years

16. Key qualifications:

Ms. Reyhan Eyrice has over 15 years of general professional experience in environmental engineering regarding project implementation. She has vast experience in environmental, health and safety policy and legislation. She has C Grade Health Safety Training (180 hours) by ARAS Ltd. that was distinguished by Ministry of Labour and Social Security and has certificate since 2010, as well as over four years of experience in Health and Safety issues. She is A Grade H&S Expert since 2014 February. She also participated anti-skid, defensive driving and off-road training and

completed successful and had a special off-road driving licence provided by HED AKADEMİ.

As an Environmental Specialist at TANAP she is monitoring studies of Environmental Department of Construction Contractor's (CC) environmental based activities that are being performed in order to comply with project's environmental terms of conditions. She is also observing performances of Environmental Department of EPCM (Engineering Procurement Construction and Management) related to inspection activities upon CC's environmental based activities. Additionally she is reviewing and evaluating the activities of the third party environmental monitoring team of the project. She is also accompanying experts from EBRD, IFC during site inspections/observations whenever necessary. One of her main responsibility is performing and leading coordination meetings together with EPCM and CC's environmental teams.

Her main responsibility within the Ronesans Holding was to lead and coordinate preparation of reports (e.g. Environmental Impact Assessments, Resettlement Action Plan, Stake Holder Engagement Plan, Environmental and Social Action Plan, Cumulative Impact Assessment, Project Restoration Plans etc.) related to the environmental issues and also mandatory for national environmental legislation, conducting site visits for ongoing energy projects of the holding. Besides she was also having responsibility to lead and coordinate preparation of the reports related to the resettlement, environment, social and health and safety issues in line with the international requirements (e.g. EBRD, IFC, MidSEFF etc.).

Ms. Reyhan Eyrice was one of the senior environmental and health and safety experts of ENCON, was mainly responsible for the preparation of environmental and social due diligence reports (ESDD), management review, analysis and action planning studies, and HSE related site audits in accordance with national, international (EBRD and IFC requirements) and client specific requirements. She has been involved in projects from various sectors including; mining, industrial manufacturing, infrastructure (such as ports, jetties, highways) and energy.

17. Specific experience in the region:

Country	Date: from (year) to (year)
Turkey	1999- present

18. Profession Experience:

Date from – date to	Location	Company	Position	Description
2017-ongoing	Ankara Head Office	TANAP	LOT2 - LOT4 responsible	Conducting quarterly environmental site inspections and environmental and social compliance reviews. Participating monthly construction progress meetings. Ensuring coordination between site and head office. Contributing official correspondence between client and contractors.
2015-2017	Polatlı-Yozgat	TANAP	Environmental Specialist	Monitoring, observing, and managing the environmental management based activities of Environmental Team of CC and EPCM and the external monitoring team of the Project.

2014-2015	Kırşehir	Ronesans Holding	EHS Responsible	Reviewing EIA and ESIA of Kanyon Natural Gas Combined Cycle Plant (completed).
2014-2015	Hakkari, Cukurca	Ronesans Holding	EHS Responsible	Reviewing EIA of DC Dam and Hydropower Power Plant (completed).
2015	Adana	Ronesans Holding	EHS Responsible	Preparing Technical Specification Documents for EIA and ESIA reports Klıkya Thermal Power Plant and technical review of the composed documents related to the above mentioned reports (ongoing).
2014-2015	Amasya, Erzurum, Kars, Karabük	Ronesans Holding	EHS Responsible	Developing H&S and Environmental Management Plan in accordance with international standards and ASAP prepared by EBRD experts within ESDD report. Reviewing prepared sub-plans by EHS sub-contractor). Conducting site audits and preparing EHS monitoring reports for executive board (ongoing).
2013	Sakarya	ENCON for ENVIRON/US/UK	EHS Expert - Auditor	Following the Phase I Environmental Assessment Report, conducting Phase II site assessment for the facility that is manufacturing high pressurized hydraulic horse. The report is developed in line with <i>Phase II Environmental Site Assessment</i> .
2013	Ankara Usak	ENCON	Project Engineer	Preparation of EIA Report for a Gold Mine in line with national EIA legislation.
2013	Ankara Adana	ENCON	Project Engineer	Preparation of EIA Report for Combined Natural Gas Power Plant in line with national EIA legislation.
2013	Sakarya	ENCON for ENVIRON/US	EHS Expert - Auditor	Developing Phase I Environmental Assessment Report for the facility that is manufacturing high pressurized hydraulic horse. The report is developed in line with <i>Phase I Environmental Site Assessment Process E1527-05</i> (the “ASTM Standard”) and national applicable HSE requirement.
2013	Aydın	ENCON (together with Atkins for EBRD)	EHS Expert - Auditor	Environmental and Social Due Diligence and Analyses additionally contain detail evaluation on Health and Safety issues for Guris (Efeler GPP) including preparation of Environmental and Social Action Plans and Stakeholder Engagement Plan in accordance with EBRD requirements .
2013	Various mining sites in Turkey	ENCON (for IFC)	EHS Expert - Auditor	Environmental and Social Audit and Analyses/ Due Diligence for Dedeman Mine Co. including preparation of Environmental and Social Action Plans and Stakeholder Engagement Plan in accordance with EBRD and IFC Policies .

2013	Izmir	ENCON (together with ENVIRON) for EBRD&IF C&AFD)	EHS Expert - Auditor	Environmental and Social Audit and Analyses/ Due Diligence for Izmir Metropolitan Municipality specifically the project for renewing the Izmir Ferries including preparation of Environmental and Social Action Plans and Stakeholder Engagement Plan in accordance with EBRD and IFC Policies .
2013	Tekirdag	ENCON (together with ENVIRON) for EBRD	EHS Expert - Auditor	Environmental and Social Audit and Analyses/ Due Diligence for ASYAPORT (Tekirdag, Barbaros) including preparation of Environmental and Social Action Plans and Stakeholder Engagement Plan in accordance with EBRD and IFC Policies .
2012	Ankara	ENCON for ENVIRON/ Germany /UK/US	Project Engineer	Providing consultancy services to an International Company with regard to Environmental Legislation Compliance.
2012	Istanbul	ENCON for ENVIRON/ UK	Auditor	H&S Audit was conducted for a Transportation Company
2012	Izmir	ENCON for URS/ Germany	Auditor	Preparation of a phase 2 Environmental Assessment.
2012	Ikitelli OIZ	ENCON for ENVIRON/ UK	Auditor	Supporting the lead Auditor with regard to Turkish Health and Safety Legislation compliance during the preparation of EDD Report .
2012	Duzce/ Canakkale	ENCON for ENVIRON/ Germany	Auditor	Supporting the lead Auditor with regard to the facility compliance of Environmental and Social Legislation during the preparation of EDD Report .
2012	Cerkezkoy	ENCON for ENVIRON/ Germany	Auditor	Supporting the lead Auditor with regard to the facility compliance of Turkish Health and Safety Legislations during the preparation of EDD Report .
2012	Ankara	Renaissance Development	Project Engineer	Preparation of Environmental and Social Gap Analysis for Istanbul Port in accordance with IFI requirements (World Bank Operational Policies, IFC performance standards, EBRD performance requirements).
2012	Ankara	ENCON for ENVIRON/ Germany	Project Engineer	Environment, Health and Safety Program review for an international company in line with Turkish HSE applicable legislations.
2012	Ankara	ENCON	Project Engineer	Comprehensive Environmental and Social Management Plan (ESMP) preparation for Alpaslan II Dam and HEPP Project covering project construction and operation phases including monitoring activities related to social and environmental aspects for both phases.

2011-2012	Samsun	ENCON	Auditor (ongoing)	Comprehensive environmental compliance monitoring and monitoring of Environmental Impact Assessment Report's requirements according to related both national and international regulations and requirements for Samsun OMV Natural Gas Combined Cycle Power Plant and port facilities
2011	Ankara	ENCON	Project Engineer	Preparation of Environmental Impact Assessment Report in accordance with related national regulations for Alpaslan II Dam and HEPP Project.
2011	Tajikistan	ENCON	Project Expert	In order to contribute to preparation of Rogun HPP EHSS DD Report performed detail visit of the site, communicated with personnel on site. The project sponsor is World Bank .
2011	Ankara	ENCON for ENVIRON/ Germany	Project Engineer	Preparing Health and Safety Legislative Matrix for an International Textile Factory
2011	Istanbul-Gebze	ENCON for ENVIRON/ Germany	Project Engineer (Auditor)	Assisting on Environmental and Social Due Diligence Report for an International Pizza Production Company
2011	Manisa	ENCON for ENVIRON/ UK	Lead Auditor	Compliance audit for a Beverage Can Manufacturing Facility

OBJECTIVE: Seeking a position as a Survey Group chief, Survey Engineer or As-Built Engineer (Currently Working)

CAREER SUMMARY

I am a Survey Engineer with 11 years of experience as engineer and surveying group chief who is enthusiastic about providing sustainable and qualitative living to communities. I have strong background in tunnel surveying applications and longtime experience with TBM systems and deformation analysis in 3-D, using ground based measurement methods such as leveling and surveying, with high precision. I also have experience in pipeline Permit and As-built business.

PROFESSIONAL EXPERIENCE

Turkstream Receiving Terminal Project March 2018 - Still Working

Survey Group Chief – Kiyikoy / Kırklareli

Managing of the survey groups all through the Pipelines (2 pieces 1,8 km pipeline that connects the offshore section of the project to the RT) and Receiving Terminal Construction sites.

- Supporting the coordination of the construction works along the pipeline sections of the project.
- Controlling the documentation submitted by the Contractor according to Project requirements, measurement precision and code formats.
- Preparing survey data for QA/QC documents
- Check and create the pipeline design and make the necessary changes.
- Ensuring the correctness of the project access roads for the project site and preparing the asbuilt documentation.
- Preparing manufacture drawings for progress payment monthly.
- Calculating and check measurement precision on cad software (AutoCAD, Civil-3D, NetCAD, Microstation) and guiding all survey group.
- Create as-built project after manufacturing is finalized.
- Managing Red-Line Mark-up process for Mechanical Completion.

TANAP-Trans Anatolian Natural Gas Pipeline August 2016 - March 2018

Permit, Land Acquisition and As Built Engineer – Spread 5/ Lot 3 Dogankent/Yozgat

- Any Permit liaison issues with related Authorities on behalf of TANAP and advice contractor the way to follow where necessary,
- Land Acquisition and coordination of issues with Head Office and contractor
- Controlling the documentation submitted by the Contractor according to Project requirements, measurement precision and code formats.

- Lead and advise contractor survey group to cope with extraordinary cases.

UNAL AKPINAR Construction Mining & Trade Inc., Turkey May 2012 - April 2016
Surveying group chief - Istanbul Turkey - Ayvali 1 Waste Water Tunnel Project and Beylerbeyi-Küçüksu Waste Water Tunnel Project

Management of the survey groups and TBM guidance systems that are TACS in Lovat machine and Gyro in Herrenknecht machine. Total tunnel length 8.7km, Lovat cutting dia. 3050mm, Herrenknecht cutting dia. 3251mm.

- Measuring tunnel route area and create surface detail map in the vicinity of the tunnel route
- Designing deformation control system according to 3-D profile and keep the deformation under control.
- Designing universal segment 3-D model for both of the project
- Create 3-D tunnel route for TBM guidance systems and entering the route into the guidance systems.
- Lawful interception for excavation sanction from government and creating traffic circulation in current needs.
- Preparing manufacture drawings for progress payment monthly.
- Calculating and check measurement precision on cad software (AutoCAD, NetCAD, Microstation) and guiding all survey group.
- Checking pursuance value details of both of the projects.
- Create as-built project after manufacturing is finalized.

NTF Construction Trade Ltd. Co., Turkey May 2011-February 2012
Surveying group chief - Adana Turkey - Yamanlı II Power Plant Project

Providing surveying group chief services in two separate hydroelectric plants (82 MW) which are 1st and 2nd level.

- Measuring tunnel route area and creating detailed surface map of the area of the tunnel route.
- Design and application of the site that is required for TBM.
- Calculation and preparation of necessary folders for the monthly claims and following up the process step by step with the taskmaster.
- Coordinating the surveying group and making the needed calculations and corrections.
- Application and controls of compulsory pipelines in the field
- Application and control of membrane, regulator and the main body of the dam.
- Controlling of the over break and cross-sections in the tunnel.
- Measurement and control of deformation in the tunnel with an extensometer.

NTF Construction Trade Ltd. Co., Turkey March 2008-November 2010
Surveyor group chief - Istanbul Turkey - Kavacik-Paşabahce-Beykoz Waste Water Tunnels and Collectors Project

Management of surveying group and TBM guidance systems, that is PPS in Robbins machine. Total tunnel length 7.3km, cutting dia. Ø3170mm.

- Measuring tunnel route area and create surface detail map in the vicinity of tunnel route
- Designing deformation control system according to 3-D profile and keep the deformations under control

- Create 3-D tunnel's route for TBM guidance systems and entering the route into the guidance systems
- Lawful interception for excavation sanction from government and creating traffic circulation in current needs
- Preparing manufacture drawing for progress payment every month
- Calculating and check measurement precision on cad software (AutoCAD, NetCAD, Microstation) and guiding all survey group
- Checking pursuance value details of the projects
- Create as-built project after manufacturing is finalized.

SKILL SUMMARY

- Skilled in surveying engineer and TBM survey technique
- Proficient in MS Office, Autocad, Netcad, Bentley(Microstation)
- Experienced in Google sketchUp and Solidworks
- Fluent in written and spoken Turkish and English
- Ability for analytical thinking and proven adaptability to different cultural and business environments
- Able to function independently and as a part of team, motivated and resourceful
- Able to work in extreme conditions,
- Skilled for analyzing and resolving survey and scaling
- Willingness to relocate for a new job

EDUCATION

Engineering Degree In Geodesy And Photogrammetry Engineering (Geodesy And Photogrammetry Engineering) June 2008

EDUCATION

- ☐ General Commanders` School named S.Kirov in St.-Petersburg

WORK EXPERIENCE

- AZERAQRAR CONSTRUCTION MMC /HSE MANAGER/ Azerbaijan /Gence-2019
I worked as a director for occupational health and safety in general areas
- ☐ SDC LLC / Director/ Baku / 2018_
 - Coordinates with project leaders to determine their research and demonstration needs.
 - Maintains project use and propagation records
 - Explores projects in hand and make correct choices regarding the seeds, ways of breeding and quantity of plants to be grown by managing the budget as well.
 - Improve processes for more efficient growth and harvest yields.
 - Ensures that the operation is compliant with environmental and safety regulations.
 - Oversee safety policies and regulations.
 - Determine the demand of the market and plan the cultivation accordingly.
 - Hire new employees and train them well in various gardening and Agric techniques.
 - Constantly visit the work areas to understand the soil conditions, inspect plants and crops and manage the work over there.
- RAICO LLC / HSE MANAGER/ Georgia / 2017
 - Assist in compliance reviews, general risk assessments and other safety assessments to support Health, Safety and Environmental management;
 - Maintain relevant HSE logs and documentation;
 - Assist in the compliance of applicable laws and regulations;
 - Prepare applicable HSE reports as necessary;
 - Keep records of inspection findings and producing reports that suggest improvements;
 - Record of incidents and accidents and producing statistics for managers;
 - Keep up to date with new legislation and maintaining a working knowledge of all Health and Safety Executive (HSE) legislation and any developments that affect the employer's industry;
 - Ensure the safe installation of equipment;
 - Comply with all NOV Company and HSE procedures and policies
- Yevlakh City School № 1 / Military Guidance Officer / Azerbaijan/ 2006
 - Training military-technological information about military-technological innovations in the world, along with Azerbaijan, the South Caucasus, Turkey and the CIS.
- ☐ ESKO LLC / Cashier / Azerbaijan / 2002
 - Reconciliation of bank flow management;
 - Payment of monthly expenses;
 - Collection of outstanding Accounts receivable;
 - Uploading payments to APWF.
 - Preparing cash plan

- Preparing bank book & submitting overseas balance report
- Uploading related operations to MR system
- Acknowledging SSE&APU in the system
- Other duties as per directed by supervisor

☐ Azerbaijan National Army / Battalion commander/ Baku / 1997

- Trainee commander in the pedestrian faculty at the faculty of general education.
- In 1993, I fought against the Armenian terrorists in the Gubadli region, commander of the 2 nd artillery division of the 2 nd artillery of the military unit 170. Military stockpile was abolished because the staff of the military unit 170 was greatly hurt during the war.
- Then I served as the assistant chief of staff of the 2 nd artillery (PDM tabor) of the 708 military unit. After 2 months of service, the chief of the tabor was martyred by the enemy and therefore appointed me chief of staff.
- A cease-fire was held in July 1994. Then I was sent to the city of Istanbul Republic of Turkey in the language School Kuchuk Yali. After the course I was sent to Tuzla infantry school.
- In 1996, I completed the course in NATO's hermitage doctrine. I drove to Azerbaijan and commander of the 2 nd artillery battalion of 130th military unit.
- In 1997, I was appointed commander of the second artillery rifle of the 707 military unit in Gazakh and in 1998 was appointed commander of the first motive boat of the 171 military unit in Gedebe. On November 6, 2002, I was convicted of a military system.
